5. FY 2021-22 Mid-Year Investment Report
   Recommended Action: Committee recommends to the Commission the approval of the FY 2021-22 Mid-Year Investment Update.

6. First 5 Alameda County Governance Policies
   Recommended Actions:
   a. Approve the Media Policy.
   b. Approve updates to the Investment Policy.

7. Adjournment

Information about access:

Please contact Julia Otani at julia.otani@first5alameda.org or (510) 227-6987 3 business days in advance if you need special assistance or translation/interpretation support so we can make reasonable arrangements to ensure accessibility. We will swiftly resolve any requests for accommodation to resolve any doubt whatsoever in favor of accessibility.
ACTION REQUESTED

To approve First 5 Alameda County’s Media Policy and updates to the Investment Policy.

BACKGROUND

First 5 Alameda County contracted with VIVA Social Impact Partners to review First 5’s governance policies. On October 7, 2021, VIVA presented their recommendations for the modification or creation of the following policies to the Executive Committee:

<table>
<thead>
<tr>
<th>Policy</th>

<tr>
<td>Financial Policies: Procurement, Purchasing and Contracting; Administration Costs; Accounting, Financial Reporting, Auditing; Financial Reserves &amp; Goals; Budget Adoption &amp; Amendments</td>
<td>April 21, 2022</td>
</tr>
<tr>
<td>Conference &amp; Event Funding Policy</td>
<td>April 21, 2022</td>
</tr>
</tbody>
</table>

**Media Policy**: First 5 Alameda County staff is recommending the adoption of a Media Policy. Effective communications with the media are critical to First 5’s ability to carry out its mission and promote continued public support. The policy designates the Public Information and Communications Officer (PICO) as the official spokesperson for the agency. Under the procedures outlined in the policy, all media inquiries inclusive of press releases and media solicitations will be referred to and coordinated by the PICO.
**Investment Policy:** First 5 Alameda County originally adopted an Investment Policy in May 2005. The policy is reviewed by staff on an annual basis and revisions are brought to the Executive Committee and Commission for consideration and approval as necessary. Each year, prior to such review, FSAC Finance staff works with the investment manager, Chandler Asset Management to ensure compliance with California Government Code Sections 16429.1, 53600 – 53609, and 53630 – 53686, which guides the investment of public funds and to incorporate industry best practices. Kevin Harper, CPA, has also reviewed the policy to ensure compliance with current GASB accounting standards.

The following revisions are proposed to the investment policy that was last approved by the Commission in June 2020. The following changes are shown in “track changes” for easy identification. The significant changes identified in the Investment Policy are as follows:

1. **VI. Eligible Investments; A. Authorized Investments; 3. Negotiable Certificates of Deposit:** Adopt language pursuant to California Government Code updating credit quality requirements for negotiable certificates of deposit, specifically, removing the credit quality requirement for amounts insured by the Federal Deposit Insurance Corporation (FDIC). Language specifies that the minimum credit rating is based on rating categories regardless of modifiers.

2. **VI. Eligible Investments; A. Authorized Investments; 7. Corporate Medium-Term Notes, 8. Mortgage Pass-through Securities and Asset-backed Securities, 10. Local Agency Obligations and Municipal Securities, 11. Supranationals:** Adopt language consistent with California Government Code specifying that the minimum credit rating is based on rating categories regardless of modifiers.

4. **VI. Eligible Investments; B. Prohibited Investment Vehicles and Practices; 3:** Adopt language pursuant to SB998 that allows for the purchase of government-issued securities that could result in a zero- or negative-accrual if held to maturity. The provision of the law sunsets on January 1, 2026.

5. **VI. Eligible Investments; C. Mitigating Credit Risk in the Portfolio; 2:** The Commission’s policy currently places a concentration limit of 5% per issuer except for obligations of the United States government, its agencies, and instrumentalities. In order to agree with 10% issuer concentration limit placed on supranational securities, the recommendation is to add supranationals to this list.

**FISCAL IMPACT**

There is no fiscal impact.
RECOMMENDATION

On June 24, 2021, the First 5 Alameda County Commission authorized the expansion of the charge of the Executive Committee until June 30, 2022 to include review, discussion and decision making on governance-related matters due to the uncertainty associated with the ongoing pandemic and our preparations for returning to the office in 2022.

The Commission expanded “the charge of the Executive Committee to include review, discussion and decision making on governance related matters. Historically, the Executive Committee has acted in the capacity of reviewing agency operational issues including finance, human resources and administrative items and policies to support business processes. The additional function of reviewing governance related policies and procedures including but not limited to the governing ordinance and Commission bylaws will allow the Executive Committee to efficiently support necessary updates to agency practices. Any formal action taken by the Executive Committee in this area will be reported back to the Commission. In addition, the Executive Committee may make final recommendations to the Commission to consider.”

First 5 Alameda County staff recommend that the Executive Committee approve the following recommendations:

1. Approve the adoption of the Media Policy.
2. Approve the updates to the Investment Policy.

Submitted by: Tyson Jue
Chief of Staff

Reviewed by: Kristin Spanos
Chief Executive Officer

Christine Hom
Finance Officer
I. **Purpose**

To establish a uniform media relations policy for First 5 Alameda County (First 5).

II. **Background**

Effective communications with the media are critical to First 5’s ability to carry out its mission and promote continued public support. Effective media relations best serve First 5 by:

- informing the public of what we can do for them
- promoting the First 5’s achievements, activities and events of significance
- expanding the general visibility of First 5
- supporting sustainability
- ensuring that accurate information is conveyed to the public regarding incidents and issues of a controversial and/or sensitive nature.

III. **Policy**

The Public Information and Communications Officer serves as an official spokesperson and conveys the official position on issues of general agency-wide impact or significance or situations that are of a particularly controversial or sensitive nature in consultation with the CEO and appropriate agency leadership and staff. Inquiries from the media about such issues should be referred to the PICO.

In the event of a crisis or emergency situation, the Public Information and Communications Officer will handle all contacts with the media and will coordinate the information flow from the agency to the public.

IV. **Procedures**

All media inquiries (i.e., print, electronic, social media) should be referred to the PICO. The Public Information and Communications Officer should be notified as soon as possible to inform them of any contact from the media. Such notification can be particularly important if follow-up inquiries are made with other First 5 staff to ensure a coordinated, consistent agency response.
All press releases intended for external audiences should be routed through the PICO.

Since positive media solicitation is an integral element of First 5’s communications program, any ideas for articles or pieces should be directed to Public Information and Communications Officer. In a similar manner the PICO should be notified about negative occurrences that are likely to rise to the level of a news story.

In the event of a major crisis, it is essential that an effective communications plan be put into effect to disseminate timely, accurate information and to ensure that inquiries are routed to the appropriate sources.

The Public Information and Communications Officer is responsible for the development and dissemination of all agency communications in the event of an emergency. This includes internal communications with staff, as well as communications with the media. The priority will be on maintaining timely and open communications with the media, providing complete and accurate information that has been confirmed about the emergency situation and the agency’s response to the crisis at hand. Communications with the media will be frequent throughout the duration of the emergency situation.
AGENDA ITEM 4.3

FIRST 5 ALAMEDA COUNTY INVESTMENT POLICY

I. APPLICABILITY

The Investment Policy (the “Policy”) of First 5 Alameda County (“F5AC”) is intended to cover all funds and investment activities under the direction of F5AC. All funds shall be invested in accordance with this Policy and California Government Code Section 53601 et seq. related to the investment of public funds.

The primary funds available for investment are maintained in F5AC’s Sustainability Fund. The Long Range Financial Plan guides F5AC’s use of the Sustainability Fund with the goal of sustaining program spending at a high level as the tobacco tax declines. It is anticipated that the Sustainability Fund will be used by F5AC for program services over the course of the next 8-10 years.

The Sustainability Fund (the “Fund”) was accumulated in several ways: First, the Fund developed through the initial reserve that occurred when tax dollars were accumulated but funds could not be spent until a Strategic Plan was passed (Jan. 1999 - Jan. 2000). In addition, contributions to the Sustainability Fund were budgeted over a number of years (2001 - 2004). Finally, budgeted funds that remained unspent were directed to the Sustainability Fund rather than rolling to the subsequent year’s budget (2001-present).

The Executive Committee shall assure that F5AC operates its investing activities in accordance with this Policy. To carry out this charge, the Executive Committee’s responsibilities include the following:

1. Review the overall investment philosophy of F5AC, determine whether the investment practices follow that philosophy and this Policy, and recommend appropriate changes to the Commission.

2. Establish benchmarks and strategies for the investment portfolio. Monitor the investment performance of F5AC’s portfolio for compliance with established benchmarks.

3. Monitor the cash flow requirements of F5AC and assure investments mature to provide the amounts needed. Periodically review the appropriateness of the model and assumptions used to estimate these requirements.

4. Ensure F5AC’s compliance with applicable laws and regulations.

5. Monitor and direct the selection, evaluation, and retention of each broker/dealer, investment manager, custodian or other agent utilized by F5AC to implement the investment function. Negotiate compensation with them and monitor expenses paid and services received.
6. Prepare semi-annual investment reports and present to the Commission. Also communicate to the Commission actions taken by the Committee in meeting the responsibilities described herein.

II. OBJECTIVES

F5AC's funds shall be invested in accordance with all applicable F5AC policies and codes, State statutes, and Federal regulations, and in a manner designed to accomplish the following objectives, which are listed in priority order:

1. SAFETY. Safety of principal is the foremost objective of the investment program. The objective shall be to mitigate credit risk and interest rate risk.

   a. Credit Risk. F5AC shall minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by:

      ▪ Limiting investments to the types of securities listed in Section VI of this Policy.

      ▪ Pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which F5AC will do business in accordance with Section IV.

      ▪ Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer shall be minimized as described in Section VI of the policy.

   b. Interest Rate Risk. F5AC shall minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:

      ▪ Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity to meet liquidity needs.

      ▪ Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio in accordance with Section VI of this Policy.

2. LIQUIDITY. The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). In addition, F5AC shall maintain a minimum of three months of operating expenditures in the Alameda County Treasury.
3. **RETURN.** The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities generally shall be held until maturity, with the following exceptions:

- A security with declining credit may be sold early to minimize loss of principal.
- A security swap would improve the quality, yield, or target duration in the portfolio.
- Liquidity needs of the portfolio require that the security be sold.

### III. STANDARDS OF CARE

1. **PRUDENCE.** The standard of prudence to be used by investment officials shall be the "prudent investor standard" and shall be applied in the context of managing an overall portfolio. The "prudent investor" standard states that all governing bodies of local agencies or persons authorized to make investment decisions on behalf of those local agencies investing public funds pursuant to this chapter are trustees and therefore fiduciaries subject to the prudent investor standard. When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the Agency, that a prudent investor acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the Agency. Within the limitations of this section and considering individual investments as part of an overall strategy, investments may be acquired as authorized by law.

F5AC’s overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. F5AC recognizes that no investment is totally without risk and that the investment activities of F5AC are a matter of public record. Accordingly, F5AC recognizes that occasional measured losses may occur in a diversified portfolio and shall be considered within the context of the overall portfolio’s return, provided that adequate diversification has been implemented and that the sale of a security is in the best long-term interest of F5AC.

The Finance Officer and authorized investment personnel acting in accordance with established procedures and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided that deviations from expectations are reported in a timely fashion to the Executive Committee and appropriate action is taken to control adverse developments.

2. **ETHICS AND CONFLICTS OF INTEREST.** Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make
impartial decisions. Employees and investment officials shall disclose in writing to the Executive Committee any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Portfolio managers who are dealers should not buy securities from their own or related companies. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of F5AC. Individuals acting on behalf of F5AC in accordance with this Policy and related written procedures and exercising due diligence shall be relieved of personal liability for any individual security's risk or market changes.

3. **Delegation of Authority.** The management responsibility for the investment program is hereby delegated to the Chief Executive Officer (the CEO) who has further delegated the authority to conduct investment transactions and to manage the operation of the investment portfolio to the Finance Officer. The Finance Officer shall maintain a list of persons authorized to transact securities business for F5AC and no person may engage in an investment transaction except as expressly provided under the terms of this Policy.

The Finance Officer shall develop written administrative procedures and internal controls, consistent with this Policy, for the operation of F5AC’s investment program. Such procedures shall be designed to prevent losses arising from fraud, employee error, misrepresentation by third parties, or imprudent actions by employees.

F5AC’s Finance Officer may engage the support services of outside investment advisors in regard to its investment program, so long as it can be demonstrated that these services produce a net financial advantage or necessary financial protection of the F5AC's financial resources. The advisor(s) shall follow this Policy and such other written instructions as are provided.

IV. **Selection of Financial Institutions, Depositories and Broker/Dealers**

1. **Selection of Financial Institutions and Depositaries**

   The Finance Officer shall maintain a list of FDIC insured banks approved to provide depository and other banking services for F5AC. To be eligible, a bank shall qualify as a depository of public funds in the State of California as defined in California Government Code Section 53630.5 and shall secure deposits in excess of FDIC insurance coverage in accordance with California Government Code Section 53652.

2. **Selection of Broker/Dealers.** The Finance Officer shall maintain a list of broker/dealers authorized to provide investment services. All broker/dealers who desire to become qualified for investment transactions must meet the following criteria:

   - Be recognized as a Primary Dealer by the Federal Reserve Bank of New York or have a primary dealer within their holding company structure; or
AGENDA ITEM 4.3

Report voluntarily to the Federal Reserve Bank of New York; or

Qualify under Securities and Exchange Commission (SEC) Rule 15c3-1 (Uniform Net Capital Rule).

Each authorized broker/dealer shall maintain a minimum capital requirement of $10,000,000 and have been in operation at least five years. In addition, authorized broker/dealers shall submit and annually update a F5AC approved Broker/Dealer Information Request form which includes the following information:

- The firm’s most recent financial statements;
- Proof of Financial Industry Regulatory Authority (FINRA) certification; and
- Evidence of adequate insurance coverage.

Furthermore, authorized broker/dealers must be licensed by the State of California as a broker/dealer as defined in Section 25004 of the California Corporations Code.

In the event that an external investment advisor is not used in the process of recommending a particular transaction in F5AC’s portfolio, authorized broker/dealers shall attest in writing that they have received and reviewed a copy of this Policy.

An annual review of the financial condition and registration of all qualified broker/dealers shall be conducted by the Finance Officer and the Executive Committee.

3. **MINORITY AND COMMUNITY FINANCIAL INSTITUTIONS.** From time to time, the Finance Officer may choose to invest in instruments offered by minority and community financial institutions. In such situations, a waiver to certain parts of the criteria under Paragraph 2 may be granted by the Executive Committee. All terms and relationships shall be fully disclosed to the Executive Committee prior to purchase.

4. **WORKING WITH INVESTMENT ADVISORS/PORTFOLIO MANAGERS.** Investment advisors and portfolio managers shall be selected by the Executive Committee or their designee after an initial screening and an interview process. Among the criteria for selection shall be the stability of the institution, track record, customer service, ability to comply with these investment policies, and typical return on investment.

Portfolio managers shall maintain detailed accounting records related to investment transactions and balances. They shall prepare and submit the following reports and records to F5AC:

- Monthly, a list of investments owned, including type of security, CUSIP number, number of shares, date purchased, maturity date, interest rate, accrued interest, purchase cost and market value.
- Investment advice within five business days of any trade.
AGENDA ITEM 4.3

- Documentation supporting three bids or offers obtained for each security purchased or sold.
- Quarterly, a report demonstrating compliance with this Policy.
- Notice of noncompliance, within five business days of the transaction, when the rating of an individual security declines below that allowed by this Policy, or the percentage of the portfolio in an investment type exceeds the maximum allowed by this Policy, or the amount allowed to be invested in one issuer exceeds the percentage allowed by this Policy.

V. SAFEKEEPING AND CUSTODY

The Finance Officer shall select one or more financial institutions to provide safekeeping and custodial services for F5AC. A Safekeeping Agreement shall be executed with each custodian bank prior to utilizing that bank's safekeeping services. Custodian banks shall be selected on the basis of their ability to provide services for F5AC's account and the competitive pricing of their safekeeping related services.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. All securities shall be perfected in the name of F5AC. Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.

All investment securities, except non-negotiable Certificates of Deposit, Money Market Funds and LAIF, purchased by F5AC shall be delivered by either book entry or physical delivery and shall be held in third-party safekeeping by a F5AC approved custodian bank, its correspondent bank or its Depository Trust Company (DTC) participant account.

All Fed wireable book entry securities owned by F5AC shall be held in the Federal Reserve System in a customer account for the custodian bank which shall name F5AC as “customer.”

All DTC eligible securities shall be held in the custodian bank’s DTC participant account and the custodian bank shall provide evidence that the securities are held for F5AC as “customer.”

All non-book entry (physical delivery) securities shall be held by the custodian bank or its correspondent bank and the custodian bank shall provide evidence that the securities are held by the bank for F5AC as “customer.”

VI. ELIGIBLE INVESTMENTS
A. Authorized Investments

All investments shall be made in accordance with Sections 16429.1, 53600 – 53609, and 53630 – 53686 of the Government Code of California and as described within this Policy. Minimum credit quality and concentration limits shall apply at time of purchase. Permitted investments under this Policy shall include:

1. **U.S. Treasury Obligations**: Treasury bills, Treasury notes, Treasury bonds and Treasury STRIPS with maturities not exceeding six years from the date of trade settlement. There is no limit on the percentage of the portfolio that may be invested in these obligations.

2. **Federal Instrumentality Securities**: Debentures, discount notes, callable securities, step-up securities and stripped principal or coupons with maturities not exceeding five years from the date of trade settlement. Federal Instrumentality securities shall be rated at least AAA or the equivalent by a nationally recognized statistical-rating organization (NRSRO) at the time of purchase. There is no limit on the percentage of the portfolio that may be invested in instrumentals. The maximum percent of agency callable securities in the portfolio will be 20%.

3. **Negotiable Certificates of Deposit**: Negotiable Certificates of Deposit with a maturity not exceeding five years and issued by institutions which have long-term debt rated in a rating category of A or the equivalent or better by a NRSRO and/or have short-term debt rated at least A-1 or the equivalent by a NRSRO. Negotiable CDs in amounts up to the FDIC limit does not require any credit ratings. No more than 30% of the total portfolio may be invested in Negotiable Certificates of Deposit.

4. **Repurchase agreements**: Repurchase Agreements with a final maturity date not exceeding 1 year, collateralized by U.S. Treasury obligations or Federal Instrumentality securities listed in items 1 and 2. For the purpose of this section, the term collateral shall mean purchased securities under the terms of F5AC’s approved Master Repurchase Agreement. The purchased securities shall have a minimum market value including accrued interest of 102% of the dollar value of the funds borrowed. Collateral shall be held in safekeeping in F5AC’s name by its custodian bank and the market value of the collateral securities shall be marked-to-the-market daily. There is no limit on the amount to be invested in repurchase agreements.

5. **Prime Commercial paper**: Prime Commercial Paper with a maturity not exceeding 270 days from the date of trade settlement with the highest ranking or of the highest letter and number rating as provided for by a NRSRO. The entity that issues the commercial paper shall meet all of the following conditions in either sub-paragraph A. or sub-paragraph B. below:
AGENDA ITEM 4.3

A. The entity shall (1) be organized and operating in the United States as a general corporation, (2) have total assets in excess of $500,000,000 and (3) have debt other than commercial paper, if any, that is rated A or higher by a NRSRO.

B. The entity shall (1) be organized within the United States as a special purpose corporation, trust, or limited liability company, (2) have program-wide credit enhancements, including, but not limited to, over collateralization, letters of credit or surety bond and (3) have commercial paper that is rated A-1 or higher, or the equivalent, by a NRSRO.

No more than 25% of the total portfolio shall be invested in commercial paper. F5AC may purchase no more than 10% of the outstanding commercial paper of any single issuer.

6. State of California’s Local Agency Investment Fund (LAIF): LAIF, in accordance with California Government Code Section 16429.1. LAIF investments are limited to statutory limits.

7. Corporate Medium-term Notes: Corporate medium-term notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States, with a final maturity not exceeding five years from the date of trade settlement, and rated in a rating category of A or the equivalent or better by a NRSRO. The aggregate investment in medium-term notes shall not exceed 30% of the total portfolio.

8. Mortgage Pass-through Securities and Asset-backed Securities from issuers not defined in sections 1 and 2 of the Authorized Investments section of this policy: Mortgage pass-through securities and asset-backed securities shall have a maximum legal final maturity of five years and shall be rated in a rating category of “AA” or the equivalent or better by a NRSRO. No more than 20% percent of the portfolio may be invested in such securities, and no more than 5% of the portfolio many be invested in any single issuer.

9. Money Market Mutual Funds: Money market mutual funds which are registered under the Investment Act of 1940; are “no-load” (meaning no commission or fee shall be charged on purchases or sales or shares); have a constant net asset value of $1.00; invest only in the securities and obligations authorized in California statutes; and have attained the highest ranking or the highest letter and numerical rating provided by not less than two NRSROs. The aggregate investment in money market funds shall not exceed 20% of the portfolio.

10. Local Agency Obligations and Municipal Securities: Obligations of the State of California, California local agency obligations, as well as registered treasury notes or bonds of the other 49 states in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 states, in addition to California, rated in a rating category of A or the equivalent or better by at least one NRSRO. No more than 5% of the portfolio may be invested in any single issuer, and no more than
30% of the portfolio may be in Municipal Securities. The maximum maturity shall not exceed five (5) years.

11. **Supranationals**: Issues are US dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank. The securities shall be rated in a rating category of “AA” or the equivalent or higher by a NRSRO. No more than 30% of the total portfolio may be invested in these securities, with no more than 10% of the portfolio invested in any single issuer. The maximum maturity shall not exceed five (5) years.

12. **Federally Insured Time Deposits (Non-Negotiable Certificates of Deposit)** in state or federally chartered banks, savings and loans, or credit unions, provided that:
   - The amount per institution is limited to the maximum covered under federal insurance.
   - No more than 20% of the portfolio will be invested in a combination of federally insured and collateralized time deposits.
   - The maximum maturity does not exceed five (5) years.

13. **Collateralized Time Deposits (Non-Negotiable Certificates of Deposit)** in state or federally chartered banks, savings and loans, or credit unions in excess of insured amounts which are fully collateralized with securities in accordance with California law, provided that:
   - No more than 20% of the portfolio will be invested in a combination of federally insured and collateralized time deposits.
   - The maximum maturity does not exceed five (5) years.

B. **Prohibited investment vehicles and practices**

1. State law notwithstanding, any investments not specifically described herein are prohibited, including, but not limited to, mutual funds (other than government money market funds as described in Section VI A(9), unregulated and/or unrated investment pools or trusts, collateralized mortgage obligations and futures and options.

2. Investing in inverse floaters, range notes, or mortgage derived interest-only strips is prohibited, per Government Code Section 53601.6.

3. Investment in any security that could result in a zero interest accrual if held to maturity is prohibited. Under a provision sunsetting on January 1, 2026, securities backed by the U.S. Government that could result in a zero- or negative-interest accrual if held to maturity are permitted.

4. Trading securities for the sole purpose of speculating on the future direction of interest rates is prohibited.
5. Purchasing or selling securities on margin is prohibited.

6. Using reverse repurchase agreements, securities lending or any other form of borrowing or leverage is prohibited.

7. Purchasing securities issued by company in the tobacco business, including parent companies and their controlled subsidiaries, is prohibited.

8. Purchasing foreign currency denominated securities.

Prohibited investments held in the portfolio at the time of adoption of this Policy may be held until maturity at the discretion of the Finance Officer.

C. Mitigating credit risk in the portfolio

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. F5AC shall mitigate credit risk in the following ways:

1. Abiding by the diversification requirements included in Section VI (A);

2. Limiting 5% of the total portfolio to securities of any single issuer, other than the US Government, its agencies and instrumentalities, and supranational obligations;

3. Electing to sell a security prior to its maturity and record a capital gain or loss in order to improve the quality, liquidity or yield of the portfolio in response to market conditions or F5AC’s risk preferences; and

4. Reviewing securities owned by F5AC which are downgraded to a level below the quality required by this Policy. In such cases it shall be F5AC’s policy to review the credit situation and make a determination as to whether to sell or retain such securities in the portfolio.

- If a security is downgraded two grades below the level required by F5AC, the security shall be sold immediately.

- If a security is downgraded one grade below the level required by this Policy, the F5AC Finance Director shall use discretion in determining whether to sell or hold the security based on its current maturity, the loss in value, the economic outlook for the issuer, and other relevant factors.
• If a decision is made to retain a downgraded security in the portfolio, its presence in the portfolio shall be monitored and reported monthly to the Executive Committee and the Commission of F5AC.

D. Mitigating market risk in the portfolio

Market risk is the risk that the portfolio will decline in value (or will not optimize its value) due to changes in the general level of interest rates. F5AC recognizes that, over time, longer-term portfolios achieve higher returns. On the other hand, longer-term portfolios have higher volatility of return. F5AC shall mitigate market risk by providing adequate liquidity for short-term cash needs, and by making some longer-term investments only with funds that are not needed for current cashflow purposes. F5AC further recognizes that certain types of securities, including variable rate securities, securities with principal paydowns prior to maturity, and securities with embedded options, will affect the market risk profile of the portfolio differently in different interest rate environments. Therefore, the following strategies shall be adopted to control and mitigate exposure to market risk:

• F5AC shall attempt to match its investments with anticipated cash flow requirements.
• Maximum final maturity of investments in the Treasury and Agency securities shall not exceed six years. All other investments shall have a final maturity as stated in Section VI, Eligible Investments.
• The weighted average maturity of the portfolio shall not exceed three years.
• Reserve funds and other funds with longer-term investment horizons may be invested in securities exceeding six years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of funds.

VII. PERFORMANCE OBJECTIVES AND EXPECTATIONS

The investment portfolio shall be designed to attain a market rate of return throughout budgetary and economic cycles, taking into account prevailing market conditions, risk constraints for eligible securities, and cash flow requirements. The performance of F5AC’s investments shall be compared relative to the chosen market benchmark(s), which will be included in the monthly report. An appropriate, readily available index to use as a market benchmark will be selected. When comparing the performance of F5AC’s portfolio, its rate of return shall be computed net of all fees and expenses.

VIII. SOCIAL AND ENVIRONMENTAL CONCERNS

In the event all general objectives mandated by state law and set forth in Section II above are met and created equal, investments in corporate securities and depository institutions will be evaluated for social and environmental concerns. Investments are encouraged in entities that support equality of rights regardless of sex, race, religion,
creed, age, disability, or sexual orientation, as well as those entities that practice environmentally sound and fair labor practices. Investments are discouraged in entities that receive a significant portion of their revenues from the manufacturer of firearms, or weapons not used in our national defense. Investments that receive any revenues from the manufacturer of tobacco products is prohibited.

IX. REPORTING

Semi-annually, the Finance Officer shall submit to the Executive Committee a report of the investment earnings and performance results of F5AC’s investment portfolio. The report shall include the following information:

1. Investment type, issuer, date of maturity, par value and dollar amount invested in all securities, and investments and monies held by the F5AC;
2. A description of the funds, investments and programs;
3. A market value as of the date of the report (or the most recent valuation as to assets not valued monthly) and the source of the valuation;
4. A statement of compliance with this Policy or an explanation for non-compliance; and
5. A statement of F5AC’s ability to meet expenditure requirements for six months, and an explanation of why money will not be available if that is the case.

MONTHLY REPORTS

Monthly investment reports will be submitted or made available upon request to the Executive Committee within 30 days of the end of the reporting period. These reports will disclose, at a minimum, the following information about the characteristics of First 5 Alameda County’s portfolio:

1. An asset listing showing par value, cost and independent third-party fair market value of each security as of the date of the report, the source of the valuation, type of investment, issuer, maturity date and interest rate.

2. Monthly transactions for the period.

3. A one-page summary report that shows:
   a. Average maturity of the portfolio and modified duration of the portfolio;
   b. Maturity distribution of the portfolio;
   c. Average portfolio credit quality; and,
   d. Time-weighted total rate of return for the portfolio for the prior one month, three months, twelve months and since inception compared to the First 5 Alameda’s market benchmark returns for the same periods;

4. A statement of compliance with investment policy, including a schedule of any transactions or holdings which do not comply with this policy or with the California Government Code, including a justification for their presence in the portfolio and a timetable for resolution.
5. A statement that First 5 Alameda County has adequate funds to meet its cash flow requirements for the next six months.

**ANNUAL REPORTS**

A comprehensive annual report will be presented to the Commission. This report will include comparisons of the portfolio return to the market benchmark return, suggest policies and improvements that might enhance the investment program, and will include an investment plan for the coming year.

**X. POLICY REVIEW**

This Investment Policy shall be adopted as needed and no less frequently than bi-annually by action of the Executive Committee. It shall be reviewed by FSAC at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity, yield and diversification and its relevance to current law and economic trends. Amendments to this Investment Policy shall be approved by action of the Executive Committee.
Glossary of Investment Terms

AGENCIES. Shorthand market terminology for any obligation issued by a government-sponsored entity (GSE), or a federally related institution. Most obligations of GSEs are not guaranteed by the full faith and credit of the US government. Examples are:

FFCB. The Federal Farm Credit Bank System provides credit and liquidity in the agricultural industry. FFCB issues discount notes and bonds.

FHLB. The Federal Home Loan Bank provides credit and liquidity in the housing market. FHLB issues discount notes and bonds.

FHLMC. Like FHLB, the Federal Home Loan Mortgage Corporation provides credit and liquidity in the housing market. FHLMC, also called “FreddieMac” issues discount notes, bonds and mortgage pass-through securities.

FNMA. Like FHLB and FreddieMac, the Federal National Mortgage Association was established to provide credit and liquidity in the housing market. FNMA, also known as “FannieMae,” issues discount notes, bonds and mortgage pass-through securities.

GNMA. The Government National Mortgage Association, known as “GinnieMae,” issues mortgage pass-through securities, which are guaranteed by the full faith and credit of the US Government.

PEFCO. The Private Export Funding Corporation assists exporters. Obligations of PEFCO are not guaranteed by the full faith and credit of the US government.

TVA. The Tennessee Valley Authority provides flood control and power and promotes development in portions of the Tennessee, Ohio, and Mississippi River valleys. TVA currently issues discount notes and bonds.

ASKED. The price at which a seller offers to sell a security.

ASSET BACKED SECURITIES. Securities supported by pools of installment loans or leases or by pools of revolving lines of credit.

AVERAGE LIFE. In mortgage-related investments, including CMOs, the average time to expected receipt of principal payments, weighted by the amount of principal expected.

BANKER’S ACCEPTANCE. A money market instrument created to facilitate international trade transactions. It is highly liquid and safe because the risk of the trade transaction is transferred to the bank which “accepts” the obligation to pay the investor.

BENCHMARK. A comparison security or portfolio. A performance benchmark is a partial market index, which reflects the mix of securities allowed under a specific investment policy.

BID. The price at which a buyer offers to buy a security.

BROKER. A broker brings buyers and sellers together for a transaction for which the broker receives a commission. A broker does not sell securities from his own position.

CALLABLE. A callable security gives the issuer the option to call it from the investor prior to its maturity. The main cause of a call is a decline in interest rates. If interest rates decline since an issuer issues securities, it will likely call its current securities and reissue them at a lower rate of interest. Callable securities have reinvestment risk as the investor may receive its principal back when interest rates are lower than when the investment was initially made.

CERTIFICATE OF DEPOSIT (CD). A time deposit with a specific maturity evidenced by a certificate. Large denomination CDs may be marketable.
CERTIFICATE OF DEPOSIT ACCOUNT REGISTRY SYSTEM (CDARS). A private placement service that allows local agencies to purchase more than $250,000 in CDs from a single financial institution (must be a participating institution of CDARS) while still maintaining FDIC insurance coverage. CDARS is currently the only entity providing this service. CDARS facilitates the trading of deposits between the California institution and other participating institutions in amounts that are less than $250,000 each, so that FDIC coverage is maintained.

COLLATERAL. Securities or cash pledged by a borrower to secure repayment of a loan or repurchase agreement. Also, securities pledged by a financial institution to secure deposits of public monies.

COLLATERALIZED MORTGAGE OBLIGATIONS (CMO). Classes of bonds that redistribute the cash flows of mortgage securities (and whole loans) to create securities that have different levels of prepayment risk, as compared to the underlying mortgage securities.

COMMERCIAL PAPER. The short-term unsecured debt of corporations.

COST YIELD. The annual income from an investment divided by the purchase cost. Because it does not give effect to premiums and discounts which may have been included in the purchase cost, it is an incomplete measure of return.

COUPON. The rate of return at which interest is paid on a bond.

CREDIT RISK. The risk that principal and/or interest on an investment will not be paid in a timely manner due to changes in the condition of the issuer.

CURRENT YIELD. The annual income from an investment divided by the current market value. Since the mathematical calculation relies on the current market value rather than the investor’s cost, current yield is unrelated to the actual return the investor will earn if the security is held to maturity.

DEALER. A dealer acts as a principal in security transactions, selling securities from and buying securities for his own position.

DEBENTURE. A bond secured only by the general credit of the issuer.

DELIVERY VS. PAYMENT (DVP). A securities industry procedure whereby payment for a security must be made at the time the security is delivered to the purchaser’s agent.

DERIVATIVE. Any security that has principal and/or interest payments which are subject to uncertainty (but not for reasons of default or credit risk) as to timing and/or amount, or any security which represents a component of another security which has been separated from other components (“Stripped” coupons and principal). A derivative is also defined as a financial instrument the value of which is totally or partially derived from the value of another instrument, interest rate, or index.

DISCOUNT. The difference between the par value of a bond and the cost of the bond, when the cost is below par. Some short-term securities, such as T-bills and banker’s acceptances, are known as discount securities. They sell at a discount from par, and return the par value to the investor at maturity without additional interest. Other securities, which have fixed coupons, trade at a discount when the coupon rate is lower than the current market rate for securities of that maturity and/or quality.

DIVERSIFICATION. Dividing investment funds among a variety of investments to avoid excessive exposure to any one source of risk.

DURATION. The weighted average time to maturity of a bond where the weights are the present values of the future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates. (See modified duration).
**FEDERAL FUNDS RATE.** The rate of interest charged by banks for short-term loans to other banks. The Federal Reserve Bank through open-market operations establishes it.

**FEDERAL OPEN MARKET COMMITTEE.** A committee of the Federal Reserve Board that establishes monetary policy and executes it through temporary and permanent changes to the supply of bank reserves.

**LEVERAGE.** Borrowing funds in order to invest in securities that have the potential to pay earnings at a rate higher than the cost of borrowing.

**LIQUIDITY.** The speed and ease with which an asset can be converted to cash.

**LOCAL AGENCY INVESTMENT FUND (LAIF).** A voluntary investment fund open to government entities and certain non-profit organizations in California that is managed by the State Treasurer’s Office.

**LOCAL GOVERNMENT INVESTMENT POOL.** Investment pools that range from the State Treasurer’s Office Local Agency Investment Fund (LAIF) to county pools, to Joint Powers Authorities (JPAs). These funds are not subject to the same SEC rules applicable to money market mutual funds.

**MAKE WHOLE CALL.** A type of call provision on a bond that allows the issuer to pay off the remaining debt early. Unlike a call option, with a make whole call provision, the issuer makes a lump sum payment that equals the net present value (NPV) of future coupon payments that will not be paid because of the call. With this type of call, an investor is compensated, or "made whole."

**MARGIN.** The difference between the market value of a security and the loan a broker makes using that security as collateral.

**MARGIN TO MARKET.** The process of posting current market values for securities in a portfolio.

**MATURITY.** The final date upon which the principal of a security becomes due and payable.

**MEDIUM TERM NOTES.** Unsecured, investment-grade senior debt securities of major corporations which are sold in relatively small amounts on either a continuous or an intermittent basis. MTNs are highly flexible debt instruments that can be structured to respond to market opportunities or to investor preferences.

**MODIFIED DURATION.** The percent change in price for a 100 basis point change in yields. Modified duration is the best single measure of a portfolio’s or security’s exposure to market risk.

**MONEY MARKET.** The market in which short-term debt instruments (T-bills, discount notes, commercial paper, and banker’s acceptances) are issued and traded.

**MORTGAGE PASS-THROUGH SECURITIES.** A securitized participation in the interest and principal cash flows from a specified pool of mortgages. Principal and interest payments made on the mortgages are passed through to the holder of the security.

**MUNICIPAL SECURITIES.** Securities issued by state and local agencies to finance capital and operating expenses.

**MUTUAL FUND.** An entity which pools the funds of investors and invests those funds in a set of securities which is specifically defined in the fund’s prospectus. Mutual funds can be invested in various types of domestic and/or international stocks, bonds, and money market instruments, as set forth in the individual fund’s prospectus. For most large,
institutional investors, the costs associated with investing in mutual funds are higher than the investor can obtain through an individually managed portfolio.

**Negotiable CD.** A short-term debt instrument that pays interest and is issued by a bank, savings or federal association, state or federal credit union, or state-licensed branch of a foreign bank. Negotiable CDs are traded in a secondary market and are payable upon order to the bearer or initial depositor (investor).

**Nationally Recognized Statistical Rating Organization (NRSRO).** Examples include S&P, Moody's, and Fitch ratings.

**Premium.** The difference between the par value of a bond and the cost of the bond, when the cost is above par.

**Prepayment Speed.** A measure of how quickly principal is repaid to investors in mortgage securities.

**Prepayment Window.** The time period over which principal repayments will be received on mortgage securities at a specified prepayment speed.

**Primary Dealer.** A financial institution (1) that is a trading counterparty with the Federal Reserve in its execution of market operations to carry out U.S. monetary policy, and (2) that participates for statistical reporting purposes in compiling data on activity in the U.S. Government securities market.

**Prudent Person (Prudent Investor) Rule.** A standard of responsibility which applies to fiduciaries. In California, the rule is stated as “Investments shall be managed with the care, skill, prudence and diligence, under the circumstances then prevailing, that a prudent person, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of like character and with like aims to accomplish similar purposes.”

**Realized Yield.** The change in value of the portfolio due to interest received and interest earned and realized gains and losses. It does not give effect to changes in market value on securities, which have not been sold from the portfolio.

**Regional Dealer.** A financial intermediary that buys and sells securities for the benefit of its customers without maintaining substantial inventories of securities and that is not a primary dealer.

**Repurchase Agreement.** Short-term purchases of securities with a simultaneous agreement to sell the securities back at a higher price. From the seller’s point of view, the same transaction is a reverse repurchase agreement.

**Safekeeping.** A service to bank customers whereby securities are held by the bank in the customer’s name.

**Structured Note.** A complex, fixed income instrument, which pays interest, based on a formula tied to other interest rates, commodities or indices. Examples include inverse floating rate notes which have coupons that increase when other interest rates are falling, and which fall when other interest rates are rising, and "dual index floaters," which pay interest based on the relationship between two other interest rates - for example, the yield on the ten-year Treasury note minus the Libor rate. Issuers of such notes lock in a reduced cost of borrowing by purchasing interest rate swap agreements.

**Supranational.** A Supranational is a multi-national organization whereby member states transcend national boundaries or interests to share in the decision making to promote economic development in the member countries.
**TOTAL RATE OF RETURN.** A measure of a portfolio’s performance over time. It is the internal rate of return, which equates the beginning value of the portfolio with the ending value; it includes interest earnings, realized and unrealized gains, and losses in the portfolio.

**U.S. TREASURY OBLIGATIONS.** Securities issued by the U.S. Treasury and backed by the full faith and credit of the United States. Treasuries are considered to have no credit risk, and are the benchmark for interest rates on all other securities in the US and overseas. The Treasury issues both discounted securities and fixed coupon notes and bonds.

**TREASURY BILLS.** All securities issued with initial maturities of one year or less are issued as discounted instruments, and are called Treasury bills. The Treasury currently issues three- and six-month T-bills at regular weekly auctions. It also issues “cash management” bills as needed to smooth out cash flows.

**TREASURY NOTES.** All securities issued with initial maturities of two to ten years are called Treasury notes, and pay interest semi-annually.

**TREASURY BONDS.** All securities issued with initial maturities greater than ten years are called Treasury bonds. Like Treasury notes, they pay interest semi-annually.

**VOLATILITY.** The rate at which security prices change with changes in general economic conditions or the general level of interest rates.

**YIELD TO MATURITY.** The annualized internal rate of return on an investment which equates the expected cash flows from the investment to its cost.
MEMORANDUM

TO: Commissioners, Alameda County First 5 Commission
FROM: James C. Harrison, Kristen M. Rogers & Ben Gevercer
DATE: February 11, 2022
RE: Update on Measure C Cases

The Alameda County Superior Court has scheduled a merits hearing in the two Measure C cases for Friday, June 17, 2022. The court asked for the parties to complete their briefing for the court three weeks before the hearing.

Currently, the County is collecting the Measure C local sales tax and holding the revenue in escrow pending resolution of these cases. The plaintiffs challenging Measure C argued that the state Constitution required a two-thirds vote and that involvement of county officials rendered Measure C a legislative measure subject to a two-thirds vote. The court previously dismissed those claims.

The cases now consist of the following claims: (1) Measure C violates the single-subject rule because the measure addresses early education and healthcare; (2) Measure C violates article II, section 12 of the state Constitution by naming Children’s Hospital Oakland to perform a function; (3) Measure C violates the Revenue and Taxation Code related to local sales taxes; and (4) Measure C violates the due process clause because the ballot pamphlet was misleading.

In a related challenge to Alameda County Measure W, the 2020 county general sales tax measure, the same judge assigned to the Measure C cases issued a tentative ruling dismissing the claims that the legislation that raised the County of Alameda’s sales tax rate over 2% violated the state Constitution. Petitioners in the Measure C cases have raised the same claim. The court has yet to adopt its tentative ruling in the Measure W case, but if it does, the court will likely come to the same conclusion on the same claims in the Measure C cases.

In addition, in December 2021, the First District Court of Appeal issued an opinion ruling that Oakland’s Measure AA was validly enacted with a simple majority vote. Jobs & Hous. Coal. v. City of Oakland, 73 Cal. App. 5th 505 (2021). The court rejected the argument that a statement in the ballot pamphlet that Measure AA required a two-thirds vote represented a “fraud” on the voters because the statement did not concern the measure's substantive features, was not
alleged to be intentionally misleading, and could not override the law governing the applicable vote threshold, which only requires a simple majority vote for approval. This is the fifth appellate opinion ruling that special taxes proposed by voter initiative require only a simple majority vote. The opinion is now final and was not appealed to the California Supreme Court.

Measure AA is expected to generate $30 million annually in revenues, $18 million of which will be earmarked for early education. Measure AA also provides a mechanism for First 5 to be selected as the implementation partner, either based on a decision made by the City of Oakland’s accountability officer or through a Request for Proposal.

Please let us know if you have any further questions.
Staff Announcements
February 17, 2022
• Staff
  • Recruitment open for Director of Operations, Finance, and Technology.
  • Recruitment open for Public Information and Communications Officer.

• Equity
  • Starting a three-part Equity 101 training series with staff on February 17, 2022.

• Strategic Plan
  • All staff and the Executive and Senior Leadership Teams have provided multiple reviews of the Strategic Plan, and it is being prepared for first review by the Commission in April.

• Reviewing proposals received in response to a Request for Qualifications for a new financial auditor.
We partner with communities to build relationships, services, and infrastructure that support neighborhood conditions for family and child well-being.
• **ALL IN Alameda County**  
  • Presenting at the All IN Committee on February 16, both the Neighborhoods Ready for School (NRFS) model and evaluation findings.

• **Oakland Thrives/Joint Powers Authority**  
  • Oakland Thrives /Joint Powers Authority was awarded $1.3 million by Blue Meridian to support technical assistance for place-based poverty remediation, and First 5 Alameda County was appointed to Executive Committee.

• **NRFS**  
  • Meeting with Executive Directors of NRFS partner grantees to assess approach and priorities regarding community needs and organizational capacity.
  
  • Distributed 3,000 test kits (6,000 tests) to sites in collaboration with Alameda County Public Health and Alameda County Office of Education.
We partner with stakeholders to support parents, caregivers, and children and ensure that families and providers have the resources they need for children to thrive.
• **Alameda County Fathers Corps** secured funding from Health Care Services Agency, Department of Child Support Services, Social Services Agency (SSA), and Probation Department, $100,000 each.

• **Communications Department** partnered on Earned Income Tax Credit outreach to families with young children. Print materials mailed to community organizations and households and digital materials shared online.

• **Care Coordination Expansion**
  - **First 5 submitted a quarterly report for Help Me Grow (HMG) pilot.** Of the families we've successfully reached, 69% have scheduled or completed a well-child visit. Through HMG's care coordination services, 70% of families so far have been connected to at least one health plan or early intervention service to address an identified need.
  - **Alameda Alliance for Health** received a new proposal from First 5 at the end of January to continue and expand the partnership to reach families in pediatric care through HMG.

• **Resettlement Support**
  - **Partnering with The California Wellness Foundation and District 1** to award two grants to support Afghan families’ resettling.
  - **Working with First 5 Contra Costa County** to submit a joint county proposal to First 5 California for funding Afghan resettlement efforts.
We advocate for policy and systems change that centers the needs of families, young children, and caregivers and supports community and family conditions for children and families to thrive. We also support community-led efforts, including parent leadership.
• **Kindergarten Readiness Assessment (KRA)**
  - **Completed surveys of teachers and families** Applied Survey Research currently analyzing responses. Final survey responses:
    - **2,096** parent/caregiver (158% of target)
    - **693** early care and education (ECE) professionals (426 center, 267 FCC) (73% of target)
    - **284** transitional kindergarten and kindergarten teachers (95% of target)
  - KRA Research Advisory Group reconvenes in March and April to review findings and develop recommendations.

• **Evaluation**
  - **Completed evaluation** of Help A Mother Out Diaper Bank program in Alameda County to inform policy advocacy and public investment.
  - **Beginning to scope out process evaluation** for apprenticeship program in partnership with SSA, Tipping Point, and East Bay YMCA.

• **Data**
  - **Letter to Census** to advocate for disaggregated demographic data for Asian and Asian American/Native Hawaiian and Pacific Islander families.
First 5's Role is to...

- ADVOCATE
- PLACE
- ADMINISTER
- POLICY
- PARTNER
- FUND

- Family
- Basic Needs
- Learning & Care
- Health & Well-being

Children are Ready for Kindergarten
December 17, 2021

RE: Census Bureau Invites Feedback on Proposed 2020 Census Data Products Beyond Redistricting

Release Number CB21-CN.64

Dear Census 2020 Data Products Team,

First 5 Alameda County’s mission is to build a local responsive early childhood system in support of young children and their families and caregivers. First 5 Alameda County uses data and research to inform and advance our policy agenda and to support community-led organizing and advocacy efforts. This letter is in reference to the comments regarding use cases for the Detailed Demographic and Housing Characteristics File (Detailed DHC).

Alameda County is the 7th most populous county in the state of California with over 52 languages spoken. Disaggregated data is a critical tool that helps us better understand how to serve and advocate for the unique needs of our county including our Latinx, Black, and Asian and Asian American/Native Hawaiian and Pacific Islander (NHPI) families. Detailed demographic data is particularly critical for our Asian American/NHPI community which represented a little over 33% of the population in 2019 and is the fastest growing population group in the county.

We are proud of our outreach and education efforts in our diverse community which includes many groups of the Asian and Asian American/NHPI community. Communities we serve include but are not limited to Indian, Cambodian, Chinese, Filipino, Japanese, Korean, Laotian, Pakistani, Taiwanese, Thai, Vietnamese, and members of the NHPI community.

Responding to the issues listed below is not only critical to Asian and Asian American and NHPI communities, but will benefit other communities that rely on detailed race and ethnicity data to advance access to quality programs and equitable policies and systems change. A strong response to these concerns is a matter of data equity and, ultimately, racial justice.

We write with the following high-priority needs for our organizations and the population we serve. We elaborate each of these needs below.

1. First 5 Alameda County needs detailed origin data on Asian and NHPI communities to be delivered to the public as soon as possible, and no later than April 1, 2023, which is the three-year anniversary of Census Day 2020.
a. We need timely access to the DDHC tables in order to have an accurate understanding of where children under the age of six live in our county, so that we can intentionally allocate resources to community partners, target our outreach and language assistance strategies, and inform policy advocacy to advance more equitable early childhood systems in our neighborhoods. Disaggregated data is an integral part of our work and helps us better understand the full needs of families like home language of children and the needs of our early childhood education workforce as seen in our 2021 Early Care and Education Needs Assessment.

b. Our communities are among the fastest growing in the United States, and past experience from the 2010 Census has shown that ACS data from 2009 and 2010 significantly underestimated the size of our communities because they were based on the 2000 Census population count. It is very likely that 2019 and 2020 American Community Survey data also significantly underestimate the diversity of our Asian and Asian American/NHPI community. In Alameda County, 1 in 3 new mothers identify as Asian—a 12% increase between 1995 and 2017, making it the largest growing group in the county. Census data also projects that the number of children who identify as Asian in the county will increase to 36% by 2060. Disaggregated data helps us understand how to better serve the diverse cultural and language needs in our community.

c. Data and evaluation are a critical component of our work and helps inform how our county supports the conditions that allow children, families, and the community to thrive. The DDHC tables are essential to our work because they provide benchmarking data needed to produce accurate survey sample weights. Delays will force us to construct sample weights using inaccurate benchmarks that ultimately pin back to the 2010 Census and will seriously jeopardize our organizational mission and ability to identify and meet the pressing social and economic needs of Asian and Asian Americans/Native Hawaiian and Pacific Islanders and other diverse groups in Alameda County.

2. We are requesting that the Census prioritize for production schedule the following DDHC tables as noted in the 2020 Census Data Product Planning Crosswalk and as referenced from the 2010 Census SF2 file:
   - T1. Total Population (PCT1)
   - T2. Sex by age for selected age categories (PCT3)
   - T3. Household type (PCT8)
   - T4. Tenure (HCT2)
At First 5 Alameda County we use total population data to identify the number of children under the age of six living in Alameda County. Data disaggregated by census tract, block groups, and blocks help inform our outreach and identify partners to support the child and family conditions. We use this data to advocate for policy changes that create and support community and family conditions for children and families to thrive. To do this we must understand the specific needs of our diverse populations living in our county by neighborhood level. For example, analysis of our 2017 Kindergarten Readiness Assessment for Alameda County found that East Asian and South Asian children had significantly higher scores than average (i.e., the overall sample). The study also found that Southeast Asian, Filipino, and Native Hawaiian/Pacific Islander children had lower scores than average, but the differences were not statistically significant partly because the sample sizes were very small (e.g., 27 for NH/PI).

3. In addition, we urge you to prioritize the creation of tables noted in the 2020 Census Data Product Planning Crosswalk that are essential to the work that we do, as detailed below. These tables include critical information on the prevalence of intergenerational households, household types, and other key demographic features of our communities. We ask that you produce the following tables:

<table>
<thead>
<tr>
<th>Table</th>
<th>Title</th>
<th>Use Case</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCT17</td>
<td>PRESENCE OF MULTIGENERATIONAL HOUSEHOLDS</td>
<td>We understand that Asian and Asian American and NHPI communities historically included higher levels of multigeneration households. During the COVID-19 pandemic we learned about the challenges that multigenerational households face in accessing rent, utility, and food supports. This data would help target outreach and improve estimated need within the diverse Asian and Asian American and NHPI community.</td>
</tr>
<tr>
<td>PCT30</td>
<td>HOUSEHOLD TYPE BY RELATIONSHIP FOR THE POPULATION UNDER 18 YEARS</td>
<td>First 5 Alameda support fathers to be meaningfully engaged with their children and we advocate for father-friendly services. These data at the county level helps us understand need and where to conduct outreach and advocacy.</td>
</tr>
</tbody>
</table>

Our use case for PCT17 and PCT30 allows us to identify where to target supports that improve the conditions young children and their families need to thrive. We target our resources by allocating resources in neighborhoods with children under the age of 6 that are impacted by
poverty and structural racism. Having data on the disaggregated groups of Asian and Asian American/NHPI and other races informs our local policy advocacy efforts to ensure that families with young children and communities have appropriate resources and tools to support their child’s development. We need block data to be able to produce effective educational tools, like our District Profiles, to inform our local elected officials, systems leaders, and the community on the needs of children and families.

4. Among the tables to be created as part of the DDHC, we urge you to provide data at the Census block group and Census block level whenever possible.
   a. The ability to locate detailed Asian American and Pacific Islander groups in the most specific geographic areas possible is important for efficient and effective outreach. Further, understanding variations within counties in terms of demographic presence and circumstances is only possible when data are produced at these lower levels of analysis. As mentioned before, in Alameda County there are many countries of origin under the Asian and Asian American/NHPI population classification in the 2010 Census data.

5. We are also concerned about the loss of reporting for certain Pacific Islander and Native Hawaiian detailed-identity groups as a result of disclosure avoidance and differential privacy concerns. Where privacy concerns are not an issue, additional information on identity groups should be available for Pacific Islander and Native Hawaiian groups.

Thank you for considering the serious concerns and priorities we outline above.

Sincerely,

Kristin Spanos
Chief Executive Officer
First 5 Alameda County

CEO Authorizations 12/10/21-2/10/22
To: First 5 Alameda County Commission  
From: Kristin Spanos, Chief Executive Officer  
Christine Hom, Finance Officer  
Maria Canteros, Finance Administrator  
Date: February 17, 2022  
Subject: FY 2021-22 Mid-Year Financial Report and Proposed Budget Modifications

REQUESTED ACTION

To approve the FY 2021-22 Mid-Year Financial Report and Proposed Budget Modifications.

BACKGROUND:

On February 10, 2022, the First 5 Alameda County Executive Committee unanimously recommended approval of the FY 2021-22 Mid-Year Financial Report and Proposed Budget Modifications.

FY 2021-22 MID-YEAR FINANCIAL REPORT, JULY 1, 2021-DECEMBER 31, 2021

This narrative, and the attached statements, report Revenues and Expenses for the period July 1 – December 31, 2021. At the end of December, 50% of the fiscal year was complete. A detailed description of revenue and expenses is listed below.

Revenue

As of December 31st, total revenue received was $6.9 million, or 29% of the revenue projection for the current fiscal year compared to 45% last year. Of this amount:

- Tobacco Tax receipts of approximately $4.6m (of $11.8m budgeted) or 39% was received for the first six months of the fiscal year. Proposition 10 revenues are typically received 2 months in arrears consistent with prior year’s trends.
- Other First 5 income includes $41,438 (of $1.2m budgeted) or 3% of funding received. Funding consists of grant reimbursements from First 5 California IMPACT 2020, First 5 California IMPACT Incentive Layer and Children's Council of San Francisco (First 5 San Francisco/Hub) reimbursements based on expenses incurred during the period.
- As of December 31st, $1.3m (of $2.6m budgeted) or 51% of Interagency Income had been received from contract reimbursements from Alameda County Public Health Department (CHDP Help Me Grow Linkage Line contract), Alameda County Health Care Services Agency (Fathers...
Corp program support), Alameda County Social Services Agency (Workforce Pilot program & HMG program support), Alameda County Office of Education (QRIS Block Grant 8, Inclusive ELC grant), California Department of Social Services (QCC QRIS Block Grant 4) and California Department of Education (Preschool Development Grant).

- Grant funding of $559,813 (of $1.1m budgeted) or 49% was received from Sunlight Giving for general support, from Alameda Alliance for Health to support the Integrated Pediatric Care Management project and from Aurrera Health Group to support provider engagement and training activities of the “ACES Aware” program.
- MAA invoicing for FY 2020-21 expenditures is in process and reimbursements are expected later this calendar year. MAA revenue is budgeted at $1.8m for FY 2021-22.

Expenses

At $7.4m, total Expenditures for the first six months were 31% of the budgeted amount of $23.8m. Personnel costs are at 40% of the budgeted amount and include budgeted hiring to support program work in the remaining fiscal year. Contracts and grants expenses are at $2.1m or 21% of budget. Invoicing for first and second quarter contract payments are currently underway and will be reflected in third quarter expenditures. Consistent with prior year practice, the majority of contracts and professional services contract expenses are paid in the second half of the fiscal year due to the timing of when reporting and invoices are received.

Program operating costs are at 12% of budget; expenses are incurred at different times of the year based on various program factors. Administrative costs for the 6-month period are at 6.04%. We anticipate experiencing a greater rate of budgeted spending through the end of the fiscal year. Infrastructure cost spending is closely in line with the budget for the 6-month mark and is comprised primarily of agency wide administrative expenses including insurance premium payments and office operating costs.

Summary

Total receipt of revenues is on the lower end at the mid-year primarily due to the timing of monies to be received from the State Controller’s Office for Proposition 10 and Proposition 56 revenue payments and revenues due to be received from other First 5 Income. Expenses incurred are also lower at the mid-year mark as has always been the case in previous years and will change as the year progresses and expense line items are expected to trend closer to budget projections by year-end.

Background: Proposed FY 2021-22 Budget Modifications

The operating budget for FY 2021-22 was adopted by the Commission in June 2021. As in prior years, First 5 Alameda County staff submit mid-year proposals to modify the adopted budget to address material changes in revenue, seek approval for unanticipated expenses that may have occurred and make necessary transfers and adjustments to reflect changes to program goals since the adoption of the original budget.

Revenue and Available Funds

The FY 2021-22 adopted budget projects revenue and available funding totaling $23,837,080. The proposed budget modification changes this amount to $24,318,458, a net increase of $481,378.
The primary changes in revenue for this fiscal year are the addition of First 5 IMPACT Incentive Layer, increase in Interagency income from Alameda County Health Care Services Agency and Alameda County Office of Education, California Department of Social Services and private funding from Sunlight Giving, Stupski Foundation and Kaiser Permanente Foundation Hospitals.

Expenditures

The FY 2021-22 adopted budget projects expenses totaling $23,837,080. The proposed budget modification changes this amount to $24,318,458, a net increase of $481,378. Please refer to the following summary of major changes and the attached worksheet detailing proposed revised revenue.

1 Budgeted revenue was received in the prior period to support current year activities

---

**Note:**

- The table above summarizes the revenues collected for the First 5 Alameda County program for the fiscal year July 1, 2021 - December 31, 2021.
- The data includes revenues from various sources such as Proposition 10 Tobacco Tax, Other First 5 Income, Interagency Income, Grants, Fiscal Leveraging, and Other Income.
- The table also indicates the percentage of revenues received in the first half of this year compared to the first half of the last year.
- Total revenues and available funds are also presented, including reserves for sustainability and prior year budget savings.

* Program Contracts and Grants also include stipends and professional services contracts with individuals or vendors for time limited services that support program work (e.g. consultants, web design, etc.)

** Program Operating costs: Costs that support agency program implementation (e.g. supplies, travel, meeting costs, etc.)

**Notes:**
- Proposed revisions reflect changes in planned Expenditure Category costs for FY 2021-22
- FY 2021-22 proposed increase in expenditure categories for personnel, contracts, grants, stipends, professional services and program operating costs are due to: the expansion in externally funded activities supporting Early Identification and Fatherhood program activities; adjustments to externally funded amounts to support activities in the QECE strategy budget; and new general operating support for the Administration, Information and Technology strategy.

To: First 5 Alameda County Commission
From: Christine Hom, Finance Officer
Date: February 17, 2022
Subject: FY 2021-22 Mid-Year Investment Report, July 1, 2021 – December 31, 2021

REQUESTED ACTION

To approve the FY 2021-22 Mid-Year Investment Report covering the period July 1, 2021 – December 31, 2021.

BACKGROUND OF ACTIVITIES

As required by California Government Code, the investment objectives of First 5 Alameda County are first, to provide safety of principal to ensure the preservation of capital in the overall portfolio; second, to provide sufficient liquidity to meet all requirements that may be reasonably anticipated; and third, to earn a commensurate rate of return consistent with the constraints imposed by the safety and liquidity objectives.

The performance objective of the First 5 Alameda County investment portfolio is to earn a total rate of return that exceeds the total rate of return on identified benchmarks.

First 5 Alameda County maintains the majority of its funds invested in a portfolio of high quality, very liquid, fixed-income securities, which are professionally managed by the Commission’s investment advisor, Chandler Asset Management. The remaining funds continue to be invested with the Alameda County Treasurer’s pool. This report summarizes the activity and status of the investment portfolio as of December 31, 2021.

On February 10, 2022, the First 5 Alameda County Executive Committee unanimously recommended approval of the FY 2021-22 Mid-Year Investment Report covering the period July 1, 2021 – December 31, 2021.

PORTFOLIO HIGHLIGHTS

The Investment Report shows the performance of funds that are invested in the portfolio with Chandler Asset Management. At the end of the last fiscal year (June 30, 2021), the total market value of the portfolio was $30,073,900. The market value of the Chandler portfolio as of December 31, 2021 was $29,880,603 at a cost of $29,787,812.
INVESTMENT REPORT

Investment Activity

The Investment Activity shows all transactions affecting our portfolio as of December 31, 2021. Purchases of securities are conducted when a maturity occurs, or when the investment advisor sells a security before maturity to rebalance the portfolio. Rebalancing is conducted to manage the risk profile of the portfolio, diversify portfolio maturities and sectors, protect market value, and enhance overall return.

Investment Income

Investment income is primarily derived from interest or yield payments on securities held in the investment portfolio. Typically, interest income from each security is received semi-annually. The Commission’s investment advisor buys, sells and exchanges securities consistent with the First 5 Alameda County Investment Policy in order to optimize overall yields.

Total investment earnings for the period ending December 31, 2021 was $247,762. For the same period last fiscal year, the total investment earnings for the period ending December 31, 2020 was $305,803.

Market Value and Unrealized Gains and Losses

The market value of the portfolio securities changes as a result of market supply and demand, shifts in interest rates, and other factors. There was an unrealized gain position of $92,791 at the end of December 2021. This is determined by comparing the Cost and the Market Value of the portfolio on that date. This is a gain on paper only, implying that a gain would have been realized, had the portfolio been liquidated on December 31st. Since the portfolio was not liquidated, this section is for informational purposes only. Per the Governmental Accounting Standards Board (GASB), government entities must report unrealized gains and losses on investments (GASB 31).

Investment Fees

Fees include those levied by the portfolio manager and the fees levied by the account custodian Union Bank (for July 2021) and new account custodian US Bank (August 2021 moving forward). The total fees paid during this period were $17,518.

Yield Benchmarks

Investment yields are compared to the Local Agency Investment Fund (LAIF) and the Alameda County Treasury Investment Pool yields in order to benchmark investment manager performance. Chandler’s average portfolio yield for the 6-month period of 1.47% is ahead of the LAIF yield of .22% and Alameda County Treasury Investment Pool yield of 1.09% (through October 2021) for the year.
FISCAL IMPACT

The total realized investment earnings and interest received (net of fees) for July 1, 2021 – December 31, 2021 was $232,042. Investment revenue for FY 2021-22 is budgeted at $450,000.

HELP A MOTHER OUT'S BAY AREA DIAPER BANK
Alameda County Final Evaluation Report
Prepared by Public Profit for Help a Mother Out | December 2021
Background

• Diaper Need
• Help a Mother Out (HAMO)
• The Evaluation
• Participating Agencies

Alameda County Public Health Department’s Maternal, Paternal, Child, and Adolescent Health (MPCAH) unit

Neighborhoods Ready for School Grantees
  Lincoln Mandela Family Resource Center
  Room to Bloom at Castlemont
  San Antonio Family Resource Center
  Union City Family Center
Key Findings

Alameda County families are healthier and happier after participating in HAMO’s diaper program.

- 98% say their family feels less stressed
- 97% say their child is healthier
- 95% have more money in the budget for food
- 94% say it’s easier to pay their bills

Source: HAMO Bay Area Diaper Bank in Alameda County Client Survey (Feb-March 2021), n=292.
Key Findings

HAMO’s diaper program enhances partner organizations’ abilities to serve families.

87% say it increases attendance or participation in programs.
85% say it allows them to cultivate longer-lasting relationships with existing clients.
79% say it helps them build more trust with clients.
66% say it brings new clients into their organization.

Source: Alameda HAMO Partner Survey (March-April 2021), n=53.
Key Findings

HAMO’s model supports families in unforeseen events, like the COVID-19 pandemic.

“[Diapers are a] very important resource, especially since last year when families lost or decreased their work due to the pandemic. The distribution of diapers during COVID-19 has given me the opportunity to stay connected with clients.”

– Alameda County Public Health Department Staff Member
Recommendations
for Policymakers

• Create sustainable funding sources to support families experiencing diaper need.

• Provide flexible funding to Community-based diaper banks.

• Use diapers as a tool to build relationships, connect families to additional resources, and strengthen the community.
Recommendations for Diaper Banks

• Integrate diaper banks into existing family support programs.
  o Partner with community-based organizations to distribute diapers to families.
  o Allow partners flexibility with how they distribute diapers.

• Center the priorities of families.

Data and Evaluation: Neighborhoods Ready for School and Help A Mother Out

Kristin Spanos, Chief Executive Officer

Laura Schroeder, Senior Administrator Data and Evaluation

February 17, 2022
Place-Based Investment: Neighborhoods Ready for School

NRFS priority zip codes were determined by applying weighted scoring to the following data:
- % Income Under 50,000
- (Low) School Performance
- # EITC Returns
- % Free Reduced Price Meal
- Truancy
- Children Below Poverty
- Suspension
- Single Parent Household
- Total Students
- Non-Home Ownership
- Total Births
- Total Medi-Cal Births
- % Medi-Cal Births
- Low Birth Weight
- # Teen Mothers
- Infant Mortality per 1,000 Births
- Asthma per 100,000
- Total Schools
- Sites Claiming Alternative Payment Vouchers
- # Licensed Child Care Facilities
- WIC Vendors
- Licensed Child Care Capacity
- Active in CalFresh
- Entries to Foster Care per 1,000 Children
- Child Maltreatment Allegations per 1,000 Children
Basic Needs: Help A Mother Out Diaper Distribution
First 5’s Approach to Data and Evaluation

1. Equity
2. Data and Evaluation
3. Inform
4. Policy and Investment
Neighborhoods Ready for School Strategy

Policy + Partnerships + Infrastructure
(e.g., STAFF, FACILITIES, ETC)

1. FAMILY LEADERSHIP OPPORTUNITIES & CIVIC ENGAGEMENT
2. COORDINATION, NAVIGATION, AND LOCATION OF PROGRAM AND SERVICES
3. EARLY CHILDHOOD PROGRAMS AND SERVICES
4. ECONOMIC RESOURCES AND FINANCIAL SUPPORTS
NRFS Cross-Site Evaluation

Empowerment Evaluation Approach

LEAD AGENCY SITE OBSERVATIONS
• Winter 2019 – 2020

INTERVIEWS
• Lead agency staff (2019/20 & 2021)
• Site partners (Spring 2021)
• First 5 staff (Spring 2020 & 2021)

CAPACITY BUILDING TA
• Site partners
• First 5 staff

REPORTING DATA
• Site partners
• First 5 neighborhood data

COVID-19 NETWORK RESPONSE SURVEY
• Winter 2020

PARTICIPANT OBSERVATION
• Learning Communities
• Monthly & bimonthly meetings

FOCUS GROUPS
Parents and caregivers
(Winter 2020)
HIGH LEVEL TAKEAWAYS

• Family Community Need
• Successes of the NRFS Model
• Recommendations for Lead Agencies, First 5, and Public Systems
Family/Community Needs

**Economic Resources and Supports**
- Financial instability
- Food insecurity
- Underemployment
- Housing

**Coordination, Navigation, and Location of Program & Services**
- Mental health support services

**Family Leadership Opportunities and Civic Engagement**
- Safe parks & play structures

**Early Childhood Programs and Services**
- Concern about learning loss
Support and Role of the NRFS Sites

Due to pre-pandemic investments in staffing, capacity building, and facilities, NRFS sites were well-positioned to become neighborhood support hubs, building on existing community partnerships to connect families with needed resources and reduce social isolation.

Strengths and Opportunities

- Easily accessible basic services
- Support from CBO with established roots
- Connection to other families
- Leadership skills
- Access to technology and navigation of virtual platforms trainings
Success of the NRFS Model

“What makes the NRFS model special and different [compared] to other services or supports families receive is building trusting connections and relationships [with families].”

-NRFS Lead Agency Staff

EMERGING EFFECTIVE ELEMENTS OF THE NRFS MODEL

- Holistic support services
- Central & accessible locations
- Culturally responsive support services
- Established trusting relationships with providers
**Recommendations**

**For Lead Agencies (Grantees)**
Continue to build on and expand connections to early childhood stakeholders, including parents/caregivers, early learning sites, K-12 schools, and providers serving families.

**For First 5**
Continue to partner with the community on strategy and investment. Foster flexible approaches to data reporting. Leverage systems connections to support NRFS policy and program priorities.

**For Public Systems**
Invest in place-based strategies by increasing the availability of culturally and linguistically appropriate services, strengthening connections to neighborhoods, and supporting neighborhood improvement efforts.
Reflections & Questions
First 5 Association Update

Recent Key Meetings
On January 6, staff joined the First 5 Association Policy Committee Call to share local policy and hear the Association’s 2022 Policy Priorities. We also discussed the Governor’s January budget timeline and process, potential 2022 legislation and key issues, and updates on the ECE Coalition. See the meeting notes for more details.

On January 19th, First 5 attended the Association Quarterly Meeting. The meeting included updates on First 5 California from Camille Maben, Executive Director of First 5 California, policy updates from Sarah Crow, Managing Director of First 5 Center for Children’s Policy, and State Budget Updates from Cathy Mossburg, First 5 Association Legislative Advocate.

On January 28th, Kristin Spanos attended the Bay Area First 5 Executive Directors’ Meeting. In addition to providing regional updates, the group discussed the Association’s work to promote partnership with Managed Care Plans, the State First 5’s Dual Language Learner pilot and Afghan Resettlement funding.

Response to Governor’s Budget Proposal
On January 12th, the First 5 Association released a response to the Governor’s budget proposals for 2022-23, recognizing the proposal as an important framework to advance the health and well-being of California’s youngest children.

2022 Advocacy Day
The First 5 Association recently announced a save the date for its annual Advocacy Day, which will be held virtually this year on Tuesday April 19th. The day is an opportunity for local First 5 agencies and their partners to meet with lawmakers to share the importance of prioritizing young children across state policy. First 5 Alameda will share more information as the event approaches and will share a recap of the Advocacy Day.
Federal Update

Build Back Better

The Biden Administration Build Back Better economic proposal has stalled in its progress through Congress. The proposal includes substantial investments in families with young children, including expanded child tax credit, paid family and medical leave, child nutrition, housing, health, and child care and preschool. A route forward for the proposal has yet to be determined as federal policymakers weigh the political viability of a narrower bill or set of bills.

Federal Budget

The federal government passed a short-term spending bill December 2nd with the goal of avoiding a shutdown of the federal government. This continuing resolution is the second the federal government has passed in the current year and supports operations through February 18, 2022.

Federal Engagement

On January 25th, First 5 Alameda signed on to a letter to President Biden and Members of Congress in support of the Child Tax Credit as a critical component of the Build Back Better proposal. The letter is part of an effort led the by ABC Coalition, which is co-chaired by the Center for the Study of Social Policy and the Children’s Defense Fund.

State Update

On January 10th, Governor Newsom released his budget proposal for 2022-23. First 5 Alameda created a high-level summary of key items in the budget proposal, as well as a roundup of partner reactions. First 5 Alameda posted on social media, broadly highlighting some of the supports to increase access to health and naming a need for more community supports and support for families with young children. Legislators have until February 18th to introduce new legislation, First 5 Alameda is closely tracking current legislation related to families with young children, including potential new bills to honor and continue the work of Supervisor Wilma Chan.

On January 25th, First 5 Alameda attended the CA Early Childhood Policy Council’s first full quarterly meeting of 2022, where the committee received several presentation.

On January 21st, First 5 Alameda signed onto a letter to State Senator John Laird, Chair of the Senate Budget Committee on Education, in support of increasing Local Childcare Planning Council funding by $10 million ongoing. The letter cited the important role that Local Childcare Planning Councils play in COVID-19 response, facilities planning, and workforce coordination.

On January 31st, First 5 Alameda attended the CA Early Care and Education Rate and Quality Stakeholder Workgroup, cohosted by the California Department of Education and the California Department of Social Services. The purpose of the workgroup is to assess the methodology for establishing reimbursement rates and the existing quality standards for equity and accessibility for all provider types and settings and to provide recommendations on how these elements should work together to support child development, positive child outcomes, and account for the entire early learning system of care. The workgroup is charged with providing recommendations to the CA Department of Finance as well as the State Legislature by August 15, 2022.

[Budget linked here](#)
2022-23 Governor’s Budget Reactions Summary

As of 3pm Thursday, January 14, 2022

**Advancement Project:** We applaud the Governor for his vision. However, while the proposed budget calls for historic investments in total per-pupil funding, concrete investments in strengthening California’s approach to racial equity, and investments to equitably fight climate change, we must do more to support communities that have been disproportionately impacted by the pandemic and California’s history of discriminatory policies and practices.

**California Budget & Policy Center:** (From ED, Chris Hoene) “State leaders have an opportunity with the 2022-23 state budget to change California’s great paradox: How can a state with such wealth also be home to immense poverty where so many Californians are blocked from comprehensive health care, affordable housing, stable jobs, paid sick leave, reliable child care, and quality higher education? The governor and Legislature can boldly act, change discriminatory policies, and invest in children, families, and individuals now.

**California Immigrant Policy Center:** BREAKING: @CAgovernor includes #Health4All in the #CAbudget, which would end the exclusion of ALL income-eligible undocumented Californians from Medi-Cal. We’ve been co-leading the campaign w/ @healthaccess for years and we won’t stop until we win this, pen on paper. Let’s go!

**CAPPA:** (From Denyna Micheletti Colburn, CEO) In watching the release of Governor’s Newsom’s plan, I am concerned about what the governor is not saying. For instance, the governor has proposed funding an additional 36,500 subsidized child care slots for families to access. However, what the governor failed to say is that the previous 110,500 slots in last year’s budget have not been fully accessed by families because he failed to funding the process of connecting families to a provider. He also failed to recognize that during this pandemic, thousands of child care providers have permanently closed their doors and there is simply not enough supply to support California’s working families. The governor also was silent on his exclusion of building up the child care workforce as part of his proposed $1.7 billion care economy workforce proposal. Funding child care slots is meaningless if there is no commitment to fund the process of actually connecting a family to a provider and rebuilding the workforce.

**Child Care Law Center:** (From Laurie Furstenfeld, Co-Director of Legal & Legislative Advocacy at the Child Care Law Center) “The budget last year froze child care co-payments for struggling families and assured child care providers could stay open despite pandemic absences. These reforms gave parents and providers much-needed relief – and they began to undo the past racist practices. It’s distressing that Governor Newsom did not include them this year.”

**CSAC:** Summary of proposals available.

**CWDA:** We are thrilled to see @GavinNewsom’s #CABudget proposal includes ALL Californians in the Medi-Cal safety net, regardless of immigration status. Heeds the call of CWDA & many other advocates for health equity & takes big step toward eliminating unjust policies rooted in racism.
Governor’s Budget 2022-2023 Highlights

Early Edge: @CAgovernor @GavinNewsom’s #CAblueprint shows a vision for what a more equitable CA could look like - one that provides universal access to healthcare coverage, creates more affordable #childcare, allows every child the chance to attend #prek, supports small businesses & more. The Blueprint will confront the cost of child care & education. The plan invests more than ever before in our students by doubling down on achieving free #universalpreschool, adding thousands of child care slots & increasing access to before, after, & summer school programs.

First 5 Association: We support Governor Newsom’s investments in ensuring our youngest children can thrive,” said Deborah Reidy Kelch, interim executive director for First 5 Association of California. “Due to the pandemic, disparities in our communities have never been more exposed. The state’s historic budget surplus represents an unprecedented opportunity to enact structural, lasting reforms that improve systems and strengthen the safety net for infants, toddlers, and their families. First 5 Association looks forward to sharing our experience in communities and early childhood development to help the administration and legislature continue to advance the well-being of young children and their families.

First 5 CA: Gov @GavinNewsom’s #CAblueprint would fund #earlyliteracy & books for families. As pioneers in early literacy and part of SSPO @TonyThurmond’s Literacy Task Force, @First5CA knows reading and other positive early childhood interactions are essential for early brain development.

First 5 LA: (Joint statement from First Association, First 5 CA, First 5 LA) “We don’t know if California will ever experience a period of sustained surplus like this again, so the governor’s focus on making systems work better and further enhancing services and programs created through previous state budgets is a truly important step toward building a more holistic and responsive system of supports for children and families,” said Kim Belshé, executive director at First 5 LA. “Recognizing the COVID crisis continues to challenge our families, the budget proposal wisely includes much needed investments to expand child care capacity, increase reimbursement rates for early learning providers and provide greater flexibility so home visiting models can help meet the diverse needs of families across the state. There is no better investment we can make than in the well-being of our youngest children, which is why this second year of surplus is critical to building more equitable, accessible and quality public systems for California’s families.”

Kidango: On Monday, January 10, Governor Newsom announced California’s 2022-2023 State Budget proposal, outlining key investments to support the critical needs of working families with young children as The Parents Agenda. Kidango is grateful for the Governor’s continued commitment to early learning and care, especially the expansion and implementation of universal transitional kindergarten which gives all families with 4 year olds access to free pre-k at their local public schools, and additional subsidized child care slots of families and child care rate increases. These investments reduce the financial pressure for families, and promotes school readiness for our youngest learners.

Kidango was pleased to see key elements of our sponsored bill from last year, Senate Bill 50 authored by Senator Monique Limon, were included in the budget proposal, including 24-month continuous eligibility and allowing State Preschool Providers to serve two-year-old children, expanding the early learning opportunities for low-income toddlers. We are excited about the investments to enable State Preschool providers to better support students with disabilities and dual language learners.
Kidango commends the Governor for his continued investments to build a stronger Early Learning and Care system and looks forward to working with the Administration and the Legislature to fulfill the promise of equitable access to quality early learning and care, including action to eliminate exclusionary practices like suspensions and expulsions that disproportionately impact Black, Indigenous, and children of color, and preventative investments to create more equitable early settings, including Early Childhood Mental Health Consultation.

Governor Newsom’s State budget proposal provides deeper emphasis on whole-family approaches that includes the expansion of the Young Child Tax Credit to families that file returns without income, allowing more families to benefit, and doubling home visits for families with children ages 0-3 with an emphasis on Black infants. “We cannot lose sight of what families and the ECE workforce are facing right now, especially Black, Indigenous, and families of color. As a state, we are making progress in achieving the vision of The Master Plan for Early Learning and Care, and we still have a long road ahead of us. With continued advocacy and collaboration with all stakeholders, we are hopeful for early learning and care systems that serve and meet the diverse needs of all children, families and ECE professional, especially Black, Latinx, Indigenous people and others harmed by systemic racism and additional injustices” said Maeva Renaud, Vice President of Advocacy and Policy at Kidango.

Legislative Women’s Caucus: “The Legislative Women’s Caucus continues to be pleased with Governor Newsom’s focus on improving the lives of women, children, and families in California. We are happy to see that the proposed budget provides for significant investments in early education and health, particularly increases in childcare spots and caregiver pay - two longtime priorities of our Caucus. We look forward to fully examining the funding priorities noted by the Governor in the 2022-23 proposed budget. As we move through the budget process, the Women’s Caucus will continue to pay particular attention to ensure that every aspect of the budget addresses the unique challenges the COVID-19 pandemic continues to place on women, especially women of color. While the labor force participation rate for females overall recovered close to the 2019 rates by March 2021, women in their mid-20s to mid-30s as well as women with small children continue to have the lowest participation rate. The economic impact of the pandemic has not been felt equally, but rather fell most heavily on women who have lost jobs or left the workforce at far higher rates.

“Additionally, the Democratic Legislative Women’s Caucus members are pleased to see that Governor Newsom’s proposed budget highlights investments that expand access to reproductive healthcare services, improve clinic infrastructure, and expand the reproductive healthcare services workforce.

“We look forward to working with the Governor and his office, as well as our Assembly and Senate Leadership to achieve a final product that prioritizes our Caucus priorities.”

United Way of CA: We are happy to see @CAgovernor’s Jan #CABudget reflect CA’s commitment to immigrant communities by including #Health4All for 26-49 year-olds (handclapping emoji). Together, we’ll ensure that NO Californian will be left out of Medi-Cal.
